“

"We can create our youth for the future, but we cannot always build the future for our youth."

Greetings from Ramaiah University!

Whoever believes in the potential of young brains has the future in their hands. All of RUAS's efforts to achieve academic achievement are motivated by the desire to provide a strong foundation for our children's bright futures.

Thank you

DR. G. S. VENKATESH
Registrar

RU

Ramaiah University of Applied Sciences (RUAS) has been established with a vision to be known as a modern, innovation-intensive university, where the university continuously interacts with the best institutions in industry, business and government sectors. We aim to produce graduates who are confident, can think creatively and apply their academic learning and practical skills to find solutions and products for problems faced by the society.

The University has established Faculties in Engineering and Technology, Art and Design, Management and Commerce, Science and Humanities, Pharmacy, Dental Sciences and Hospitality Management. Separate Directorates have been created to manage International Collaboration and Student Centric Activities, imparting Training and Lifelong Learning Skills, Transferable skills, and Leadership Development. The Techno Centre offers a wide range of consulting services to industry and government establishments. The University has invested in advanced design, simulation, manufacturing, and testing facilities and in advanced laboratories all housed in modern buildings with smart classrooms.

RUAS has embraced the outcome-based curriculum which focuses on equipping our youth with skills relevant to Industry and societal needs. The teaching, learning

AS

and assessment methods are based on robust best practices to ensure the all-round development of students for a successful career and happy life. Being a comprehensive University, the courses are inter and multidisciplinary in nature which is an essential characteristic of present day education. All courses are designed to train students to be creative, innovative, and imaginative which are the fundamental skills sets those graduates of the 21st Century must possess.

In India, the IITs, AIIMS, NIPER and NID are well known for technology, management, medical, pharmacy and design education respectively. It is envisioned that RUAS will evolve into a university that combines the successful features of all these institutions and become the Premier Innovation University in Asia in the coming decade. In addition, the University will have ongoing engagements with industries and businesses to boost the Micro Small and Medium Enterprises (MSME) including incubating business on campuses which will form the backbone of a successful, growing economy. Simultaneously, research activities at the faculties, in collaboration with Industry and Government institutions, will advance innovation and benefit society at large.

Why RUAS?

The RUAS is widely recognised as a global leader among educational institutions.

Our undergraduate programme includes the arts and humanities, social sciences, natural sciences, and engineering, and it serves nearly **23,000** students in the country.
